Prof. Prem Chand Pandey, Ph.D., FNASc., FASc.

Visiting Professor

महासागर, नदी, वायुमंडल एवं भूमि विज्ञान केन्द्र

Centre for Oceans, Rivers, Atmosphere & Land Sciences (CORAL)

TO WHOM IT MAY CONCERN

I have known Mr. Chitransh Atre for the past one year, since his admission to M.Tech. (Earth System Science and Technology) programme at Centre for Oceans, Rivers, Atmosphere and Land Sciences (CORAL), Indian Institute of Technology Kharagpur. In order to get admission into this top-tier institute, he has appeared for mandatory graduate entrance exam (GATE) and qualified with an impressive score. He has completed his Bachelor degree in Mechanical Engineering from National Institute of Technology Bhopal with a first-class degree (CGPA 8.2).

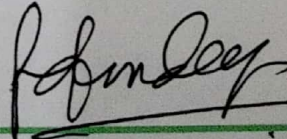

Mr. Chitransh is very enthusiastic in fluid dynamics and heat transfer and his research project for Bachelor programme was also on a related topic. He has also strong base in Atmospheric and Oceanic Sciences. In addition, he has undergone in corporate internship in Risk Management Solutions (RMS), Noida and this helped him to learn about catastrophic modelling and software skills. During Masters, he was also awarded DAAD fellowship and did his project on topic related with Ultraviolet radiations in Leibniz University Hannover, Germany where he worked as an independent researcher. These attest his zeal and passion for the application of his knowledge to solve various industrial needs or problems.

He is highly intelligent, perceptive young student with clear understanding of the subjects. His overall academic performance is very good. He is a very goal oriented, punctual, and dedicated to his work as well as ready to learn. He communicates very well and his seminar presentations showed a good comprehension and logical presentation. The candidate is honest, humble and amiable. I have found him to be courteous, sincere, and trustworthy. He has incredible creative energies and refreshing ideas.

Apart from his scholastic excellence, he is a soft spoken and well-mannered person. I have also found him to be a fluent speaker and writer in English. I am also impressed with Chitransh's overall ability that I would unhesitatingly put him amongst the top 1% students I have interacted with during my teaching career. And knowing Chitransh, he will not disappoint, and probably will exceed expectations.

Henceforth, I have strong confidence that Mr. Chitransh Atre will be one of the most promising students in your program. I strongly recommend his candidature.

I wish him success in life and endeavour
